OBJECTIVE

Dedicated full stack developer with a focus on modern web frameworks and robust backend solutions. I strive to contribute with solutions that are both scalable and user-friendly. Looking for a rewarding development environment where I can grow and deliver through smart code and strong collaboration.

SKILLS

TypeScript/JavaScript, Next.js/React, TailwindCSS, Modern UI-libraries, MongoDB, Prisma, Docker, Agile workflow

EXPERIENCE

Jan 2025 – May 2025
Full-stack Developer • Digital Semurai AB • Remote

Frontend- and Backend development in Typescript/Javascript, Nextjs, React, Tailwind, Shadcn/ui, MongoDB, Prisma, Docker and more. Agile methodology, Scrum, Project leading, DevOps.

2023
Milk Processing Department • Norrmejerier • Umeå, Ersboda

Sampling of fat content, protein, lactose, pH, and nitrate in milk, yogurt, and cream. Supervision of all facilities for maintenance, leakage, and cleaning.

2015 – 2025
Cleaner • Umeå Städservice • Umeå

Floor mopping, scrubbing machine, cleaning of facilities. Responsible for the daily schedule and confidentiality regarding clients and alarm systems.

EDUCATION

Sep 2023 – Jun 2025
Fullstack JavaScript Extended • Chas Academy • Remote/Umeå

Aug 2016 – Jun 2018
Computer and Communication Technology • Adult Education • Umeå

Sep 2014 – Dec 2015
Electrical and Energy Program • Dragonskolan • Umeå
